I am a registered nurse and have worked in the NHS since 2011. I have served in various capacities in the NHS including managerial positions and have volunteered as a project manager, business analyst and have recently completed a software development skills bootcamp.

Versatile and results-driven professional with extensive experience as a Project Manager, Business Analyst, and Software Developer. Excel at leading cross-functional teams to successfully deliver high-impact projects, utilizing a deep understanding of software development life cycles, agile methodologies, and business process improvement. Adept at analyzing complex data to drive decision-making and strategic planning, ensuring projects align with business objectives. Skilled in coding, system design, and problem-solving, with a commitment to innovation and excellence. Strong communicator, capable of translating technical concepts to non-technical stakeholders. Passionate about leveraging technology to create solutions that enhance operational efficiency and drive growth.

### Education:

MSc Advanced nursing

BSc Adult nursing

Level 3 Award in Education and Training

Level 3 excel course

Level 3 mentorship and coaching

Skill bootcamp: Front end web development
